

# GORILLA GYM FLOOR

The Gorilla Gym floor range offers a wide variety of optimal floor surfaces with high load capacity and excellent sound and vibration absorption - the perfect solution for professional applications in fitness centres or sports arenas. The Gorilla Gym Floor range offers a large colour portfolio to choose from.

## Colour Content in %

Black

10 %

20 %

40 %

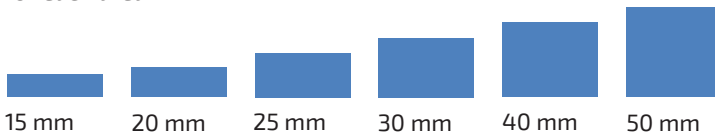

The Gorilla Gym Floor range is available in a wide variety of colours and/or colour combinations. The standard colour gradations in 10, 20, 40 and 70% allow for an individually designed floor with different visual effects depending on the percentage of colour used.

## Design your own floor:

Depending on the order volume, our customers can choose their own specific colour combinations as well as the color percentage to match any interior colour scheme they require. Please speak to our sales team for more information.

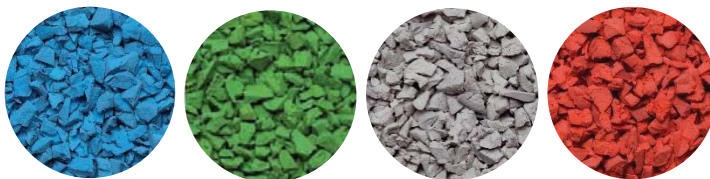

## Thickness:

Choose your thickness according to the shock absorption required for each area.

## Standard colours:

Standard colours with a black background are blue, bright-green, grey, bright-red, bright-orange, yellow and white
